

FIRE EQUIPMENT OPERATOR/PARAMEDIC

General Statement of Duties

Performs responsible fire suppression, rescue, and incident response activities including participating in firefighting, rescue and emergency medical response.

Distinguishing Features of the Class

An employee in this class participates in the operations of fire suppression, fire education and prevention, ocean and general rescue, emergency medical and other incident response operations at the fire station. Employees work on a 24 hour shift and participate as part of a team in the maintenance of facilities, equipment, and apparatus. Employees also participate in pre-incident planning, maintenance of records, and training programs. Work requires that the employee stay abreast of state-of-the-art fire suppression and rescue procedures, techniques, and equipment and requires the employee to incorporate the necessary changes into in-service training. The employee is subject to the hazards associated with incidence response work including working in inside and outside environments, in extreme hot and cold temperatures, loud noise, vibration, moving parts, high heat, chemicals, fumes, odors, dusts, gases, poor ventilation, oils, wearing respirators, and working in close quarters. The employee is also subject to the final OSHA standards on bloodborne pathogens. Work is performed under regular supervision and is evaluated through observation, conferences, and written reports concerning the quality and effectiveness of work completed.

Duties and Responsibilities
